

*"Pioneering"*

- 1. One who goes before, as into the wilderness, preparing the way for others to follow.*
- 2. A person or other entity who is first or among the earliest in any field of inquiry, enterprise, or progress.*

The Construction Pioneer Award recognizes extraordinary achievements in the field of Energy Efficient construction using Legalett's high performance building envelope solutions.

The individual or company that receives this award will have moved beyond the boundaries of the standard building code and been the first to successfully use cutting edge innovative equipment, building materials or building systems in their region and conform to either LEED, PH, NZE, R-2000 or similar high-performance standard.

They would have freely shared their experience with anyone that asked and the project will have been so successful that others would follow in their path to build projects of a similar type, having learned from the experiences of the "Construction Pioneer"

This award, with much appreciation, is presented to Greg West and Living Libations for their visionary planning and outstanding successful achievement of the Living Libations Head Quarters located outside Haliburton, Ontario.

Presented by Legalett Canada Inc. June 2019
