

Designed For Comfort

Legalett floors radiate a **gentle heat** throughout your home.

As opposed to conventionally heated homes, your Legalett floors will be the **warmest part of your home** and not the coolest. You will set your thermostat lower, but your family's comfort level will be higher.

Unlike typical hydronic radiant floor systems that are heated with water, Legalett **Radiant Floors are air-heated.**

This important improvement has **many benefits**, and is one more thing for you to feel warm and comfortable about.

LEGALETT

**TYPICAL HYDRONIC
RADIANT SYSTEMS AND
FOUNDATIONS**

No Complicated Manifolds

No Labour Intensive Site Work

Environmentally Intrusive

VS

Designed For Comfort

**LEGALETT
