

**APRIL 2006**

**FOR IMMEDIATE RELEASE  
ONTARIO, CANADA**

**LEGALETT RADIANT FLOORS LAUNCHES ITS NEXT-GENERATION RADIANT FLOOR SYSTEM AND NEW ONTARIO TRAINING FACILITIES.**

LEGALETT IS THE RADIANT FLOOR SYSTEM THAT IS ENGINEERED FOR SIMPLICITY AND CONVENIENCE.

BY SIMPLY USING AIR TO PROVIDE HEATED FLOORS INSTEAD OF WATER, LEGALETT RADIANT FLOORS FOREVER ELIMINATE THE POSSIBILITY OF CALLBACKS AND DAMAGING FLOODS DUE WATER LEAKS. LEGALETT ALSO ELIMINATES THE COMPLICATED MANIFOLD ASSEMBLIES, MIXING VALVES, INJECTION PUMPS, COMPLEX CONTROL SYSTEMS AND OUTDOOR TEMPERATURE RESET SYSTEMS THAT OWNERS OF HYDRONIC (WATER-BASED) RADIANT FLOOR SYSTEMS OFTEN FIND DIFFICULT TO OPERATE.

SLAB ON GRADE LEGALETT RADIANT FLOORS CAN TRIM WEEKS FROM MOST RESIDENTIAL AND COMMERCIAL CONSTRUCTION SCHEDULES BECAUSE EXCAVATION AND FROST WALLS ARE NOT REQUIRED WITH SLAB ON GRADE LEGALETT AIR HEATED FLOORS. IN ADDITION TO THE TIME SAVINGS, THIS ALSO MEANS THAT LOTS WITH POOR SOIL CONDITIONS CAN NOW BE COST-EFFECTIVELY DEVELOPED.

THIS YEAR LEGALETT IS TAKING DEAD AIM AT THE BASEMENT AND SUSPENDED SLAB MARKET WITH THE INTRODUCTION OF ITS NEXT-GENERATION RADIANT FLOOR LINE THAT FEATURES A 2 INCH PIPING SYSTEM INTEGRATED INTO A 4-5 INCH CONCRETE SLAB. LEGALETT SIMPLICITY AND CONVENIENCE HAS NEVER BEEN SO AFFORDABLE FOR THESE APPLICATIONS.

TO SUPPORT THE FAST GROWING DEMAND LEGALETT TRAINING COURSES FOR CONTRACTORS ARE HELD REGULARLY AT LEGALETT TRAINING FACILITIES LOCATED THROUGHOUT THE PROVINCE. FOR INQUIRES OR TO ENROL IN A CONTRACTOR TRAINING COURSE CALL LEGALETT AT 866-297-7567 OR E-MAIL AT LEGALETT@HSP.CA.
