

Welcome to the Legalett Team!

We would like to welcome the following reps to the Legalett Family - bringing a wealth of experience and construction knowledge to be able to assist our client base with making informed and insightful decisions when choosing the Legalett range of energy efficient products for their residential or commercial projects in North America.

John Cleveland

Rep for Ontario

John attended the University of Toronto School of Architecture. He has been self-employed for 35 years providing Interior Design and Custom Millwork services in various regions of Ontario. For the last 10 years John has performed numerous design/build residential projects and is a 4-time Legalett Customer and Builder. John has great strengths in designing and taking on project manager roles for his builds.

John will be looking after clients in Ontario north of Bellville in the area West of Sharbot Lake and East of Marmora.

Tim Feehan

Rep for Colorado

Tim has 30 plus years of experience in civil engineering design and construction, water resources, water policy, and project management. Prior to coming onboard as the CRMC General Manager and now Construction Manager, Tim was the Deputy Director for the Colorado Water Conservation Board, where he managed the Interstate, Federal and Water Information Section, Construction Loan Program, Finance Section, and Water Information Section, and also served as the Engineering Manager for the Boulder County Public Work Department, where he managed the County's Road and Bridge Program.

Tim received his Bachelor of Science Degree in Civil Engineering from Colorado State University and is a Registered Professional Engineer in the State of Colorado.

Tim has also built his own home with Legalett in Fraser Colorado where he invites his customers to experience first-hand the comfort and benefits of a Legalett Air Heated slab.
