

LEGALETT

RESIDENCE - 49666

This Spec Home, situated in a new subdivision of this Eastern Ontario community, incorporates the cost effective Legalett Frost-Protected foundation and heating system. The Legalett Air-Heated “Slab on Grade” technology stores heat in the slab, heat which is generated by two means; 1) Legalett heating insert, during the night at typically reduced rates and 2) Passive solar heat, during the day at no cost. The mechanical aspect consists of two Legalett water coil heaters, each providing the controlled heat for as many as four independent zones, by means of programmable thermostats.

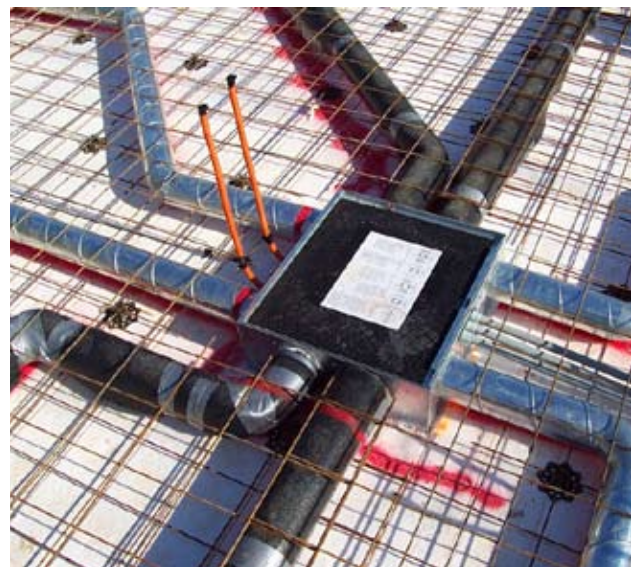

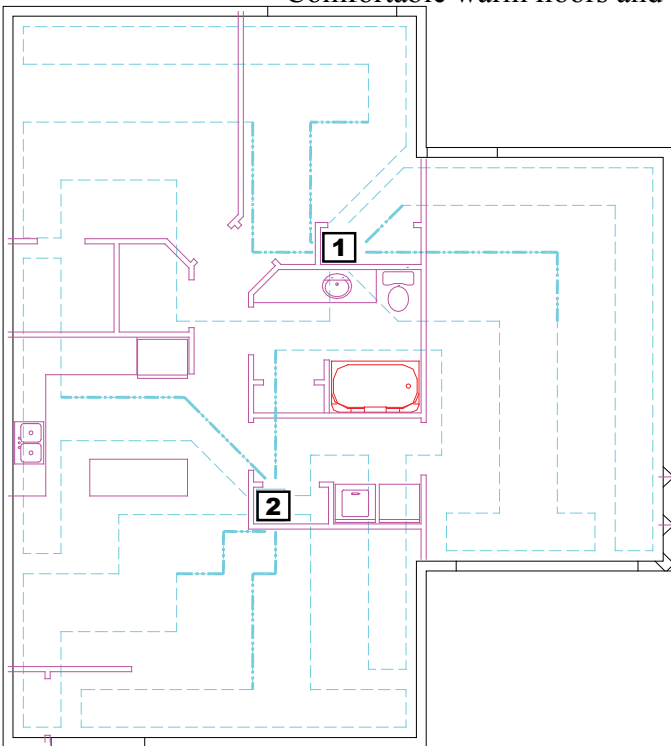

Long term benefits of choosing the Legalett system:

- Lower construction costs (No footings required)
- Reduced heating costs, compared to conventional forced-air systems
- Comfortable warm floors and moisture-free indoor air quality

Location: ... **Ingleside, ON**

Installer: **Grant Marion Construction**

Heated Slab Area: **1,344 sq. ft.**

“ Designed for Comfort, Engineered for Simplicity ”
