

LEGALETT

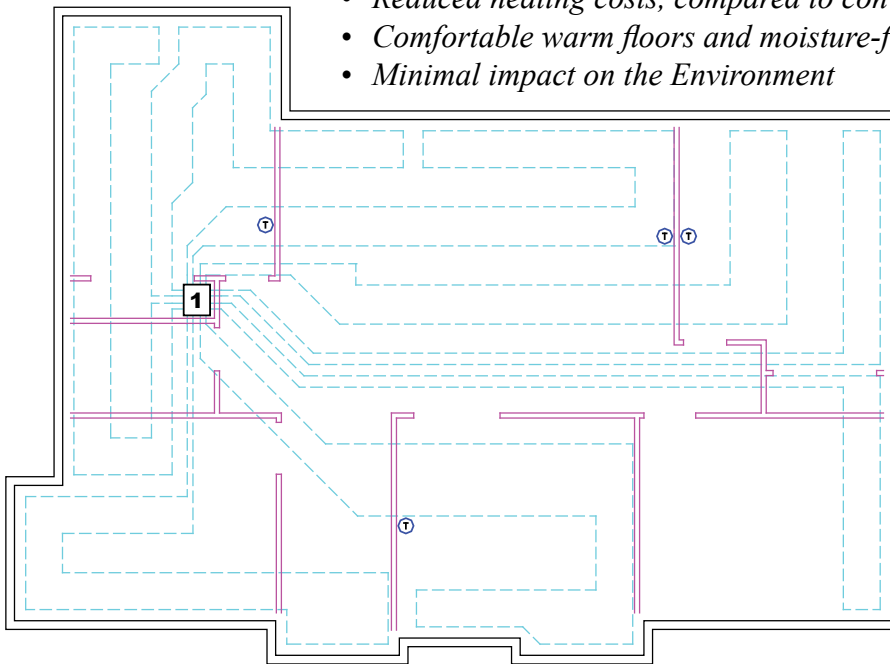

RESIDENCE - 5850

This waterfront residence is built upon a Legalett Air-Heated “Slab on Grade” system, which is the ideal solution for lots having high water tables such as this lot has.

Mechanically, the system consists of a Legalett water coil heater, heating four independent zones, controlled by means of programmable thermostats.

Long term benefits of choosing the Legalett system:

- *Lower construction costs (No footings required)*
- *Reduced heating costs, compared to conventional forced-air systems*
- *Comfortable warm floors and moisture-free indoor air quality*
- *Minimal impact on the Environment*

Location: ... **Ingleside, ON**

Installer: **Robert Boileau Construction**

Heated Slab Area: **1,615 sq. ft.**

“ Designed for Comfort, Engineered for Simplicity ”
