

The Legalett logo is displayed in white, bold, sans-serif capital letters within a dark red rectangular box.

This unique two unit layout was designed to accommodate a handicap friendly residence in one unit and a caregiver's residence in the other unit. The conveniently located attached garage is central to both units, keeping everything perfectly symmetrical. The porch and garage areas are Legalett Frost Protected designs. The mechanical aspect consists of a Legalett water coil heater in each of the two 1,582 sq.ft. units, with each heater controlling four independent zones with programmable thermostats.

Long term benefits of choosing the Legalett system:

- Reduction in heating costs, when compared to conventional methods
- Ideal comfort and indoor air quality
- Very little impact on the Environment
- "Slab on Grade" = Ease of access to physically challenged residents / guests
