

LEGALETT

LAKEFRONT RESIDENCE - 6090

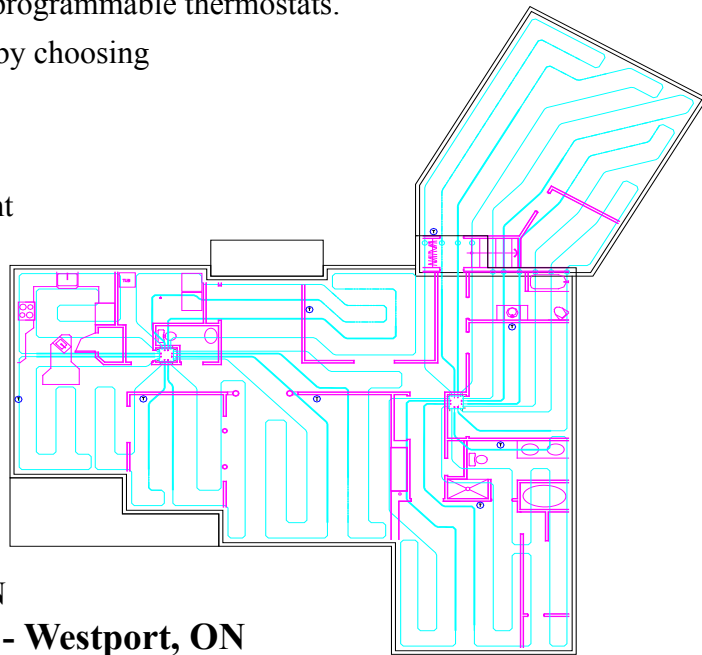

This custom two bedroom lake front bungalow located on the shores of Lake St-Francis, was constructed on a Legalett designed 8” Frost Protected Air-Heated “Slab on Grade”. The home, as well as the attached two-bay garage are heated, whereas the concrete patio off of the family /dining area, is a Frost Protected slab.

The mechanical aspect consists of two Legalett water coil heating inserts, each of which heat four independently controlled zones by means of programmable thermostats.

Homeowners enjoy many long term benefits by choosing the Legalett system, some of which are:

- Reduced construction and heating costs
- A mold and mildew free living environment
- Warm comfortable floors with no drafts
- Peace of mind when vacationing,
- that no sump pump may fail.

(No sump pump is required with Slab on Grade)
