

This multi-level, executive home was built using an array of Legalett Slab Designs, which include:

- Heated Slab-On-Grade
- Heated Suspended Slab
- Unheated Suspended Slab

The mechanical aspect consists of six Legalett water coil heaters, each controlling the temperatures of two to four independent zones by means of programmable thermostats.

Long term benefits of choosing the Legalett system:

- Reduced construction cost, compared to conventional foundation systems
- Comfortable warm floors and improved indoor air quality
- Economical heat storage, matched with Ontario Energy Board’s “[Smart Meter](#)” initiative
