

This two story seaside home accommodates three bedrooms atop an open concept main level. The project consists of an 8” Legalett designed Frost Protected Air-Heated Slab-On Grade.

The mechanical aspect consists of one Legalett electric coil heater, controlling the temperatures in four independent zones by means of programmable thermostats.

Long term benefits of choosing the Legalett system:

- Reduced construction time and overall cost
- Lower ambient temperature to maintain “Comfortable warm floors”
- Earth-Friendly building materials

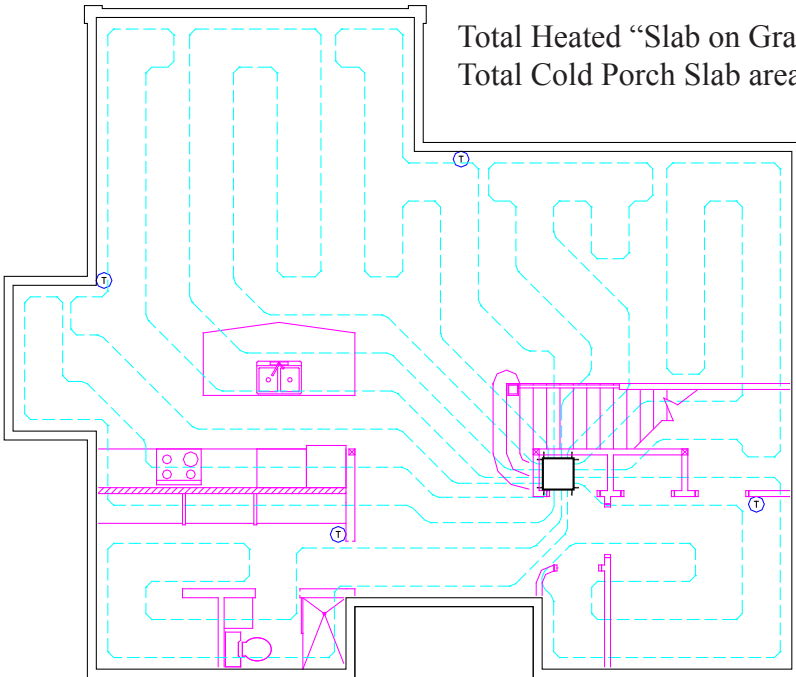

Location: ... **Head of St-Margaret’s Bay, Halifax, NS**
