

This residence is built on a 5" Heated GEO-slab, a 5" Suspended slab was used for the bonus room above the garage. Floor coverings vary from bare concrete in the garage to travertine tile and engineered T&G maple flooring.

What is it like to live in a LEGALETT home? "Spectacular! Our 5500 sq.ft. home cost us \$2500 for all our electricity in 2010. We heat the garage and a bonus room above the garage. Our home was a runner up in the 2009 ICF Builder Awards."
